**A leader in electrical and
automation solutions**

Why Quantum Controls Ltd?

- Only UK company offering for lease variable speed drives and motors in UK
- 20 years experience in hiring industrial plant
- Resource and stock holding to fulfil any electrical plant need

Call 01661 835566 to design your complete turnkey electrical system for hire

“Quantum Controls is the first company to offer a lease drive and motor service and the only one to offer a 1.5 MW drive ready to go.”
Pete Stelling, Hire Fleet Manager

Benefits of leasing industrial plant

- All industries can benefit from the installation of Variable Speed Drive and Efficient AC Motors to reduce their carbon footprint and decrease their ever increasing energy costs.
- 65% of all electricity used in industry is used to power electric motors.
- However, installation of drives and motors involves an upfront purchase of equipment which in many cases is beyond the budget limitations of the client

“Leasing drives has allowed us to reduce our energy bill with no capital outlay.”
Maintenance Engineer
